

CS 410 – Text Information System: Text Classification Competition

Team Members:

Harsangeet Kaur (kaur13@illinois.edu): Team Member

Pradeep Dwivedi (pkd3@illinois.edu): Team Lead

Competition:

Text Classification Competition

Programming Language:

We are planning to use Python as the programming language

Proposal Details:

We are new to machine learning and have no prior experience implementing language processing models. However, we are very interested to learn SOTA language processing models. We plan to use LSTM, GPT3 and other transformers to achieve best classification results.
